

*Continuing  
Medical Education*

# Lectures 2012

**Froedtert & The Medical College of Wisconsin** work with Medical College departments, individual faculty members and affiliated/community organizations to develop programming in the areas of primary care, specialty and sub-specialty topics in medicine and surgery. We organize lectures and activities with a focus on professional responsibilities related to patient safety and advocacy, new technologies, research, health care policy, ethics and compliance. We strive to present content that is based on the best evidence currently available and that is free of commercial interest and bias.

*To schedule a lecture or for more information, please refer to the contact names and numbers listed on page 4 of this booklet.*

Titles preceded by an asterisk (\*) and listed in blue indicate new lectures or course offerings for 2012.

## Continuing Medical Education Lectures 2012

### Table of Contents

	<b>Page</b>
Allergy/Asthma/Clinical Immunology.....	5
Cardiovascular Medicine .....	5
Cardiothoracic Surgery.....	7
Dermatology .....	7
Emergency Medicine.....	8
Endocrinology.....	8
Gastroenterology.....	10
Genetics .....	11
Hematology/Oncology.....	11
Infectious Disease.....	12
Nephrology .....	12
Neurology .....	12
Neuropsychology.....	14
Neurosurgery .....	14
Obstetrics/Gynecology .....	14
Orthopaedics.....	16
Otolaryngology .....	17
Physical Medicine and Rehabilitation/Neurosurgery .....	18
Plastic Surgery.....	18
Psychiatry.....	18
Pulmonary Medicine.....	19
Rheumatology.....	20
Surgery.....	20
Surgical Oncology .....	21
Transplant Surgery .....	23
Trauma Surgery.....	24
Urology .....	24
Vascular Interventional Radiology .....	25
Vascular Surgery .....	25
Allied Health Professional Speakers .....	27

To schedule a CME lecture or for more information, please contact:

**Patty Haines, BSN, RN**

Physician Liaison  
262-650-1128  
[phaines@froedterthealth.org](mailto:phaines@froedterthealth.org)

**Judy Kelegian**

Physician Liaison  
262-639-2505  
[jkelegia@froedterthealth.org](mailto:jkelegia@froedterthealth.org)

**Deanna Meyer**

Physician Liaison  
414-777-3573  
[deanna.meyer@froedterthealth.org](mailto:deanna.meyer@froedterthealth.org)

**Kathy Zdroik, BSN, RN**

Physician Liaison  
262-538-1559  
[kzdroik@froedterthealth.org](mailto:kzdroik@froedterthealth.org)

## Allergy/Asthma/Clinical Immunology

For faculty speakers, please contact the Froedtert & The Medical College of Wisconsin Physician Liaison for your area, referenced on page 4 of this catalog.

*Asthma*

*Allergic Rhinitis*

*Food Allergy*

*Immune Deficiency*

## Cardiovascular Medicine

**Marci Berger, MD, FACC**, Assistant Professor of Medicine, Cardiovascular Medicine

*Atrial Fibrillation Ablation*

*Device Therapy in Congestive Heart Failure*

*Interesting EKGs*

*Pacemaker and ICD Trouble Shooting*

*New Developments in Atrial Fibrillation*

**Michael Cinquegrani, MD, FACC, FSCAI**, Interim Chief of Cardiovascular Medicine,

Professor of Cardiovascular Medicine

*The Role of Patent Foramen Ovale in Stroke*

*Treatment of Atrial Septal Defects with Percutaneous Closure Devices*

**Michael Earing, MD**, Associate Professor of Medicine/Pediatrics

*Adults with Congenital Heart Disease: The Lost Group*

*\*Extra Cardiac Complications following Palliation of Congenital Heart Disease*

*\*Genetics of Congenital Heart Disease*

*\*LV Noncompaction*

*\*Syncope: When Should You Worry?*

**Robert Gleeson, MD, FACP**, Diplomate American Board of Clinical Lipidology

*Applying the ATP IV Guidelines (talk available summer 2012)*

*Best Practices for Using Advanced Lipid Tests*

*Case Discussion of Seven Common Lipid Problems*

*Familial Hypercholesterolemia - A Common Disease Commonly Missed*

*Understanding and Treating Lipids and Lipoproteins in Patients with Metabolic Syndrome*

*Understanding and Using Statins More Effectively*

## Cardiovascular Medicine *continued*

**Claudius Mahr, DO**, Assistant Professor of Medicine, Cardiovascular Medicine

*\*Advanced Heart Failure Management*

*\*Cardiac Transplantation*

*\*Heart Failure*

*\*Mechanical Circulatory Support*

*\*Quality Improvement in Heart Failure Care*

*\*Reducing Re-admission Rates in Heart Failure*

*\*Ventricular Assist Device Therapy*

**Catharine Malmsten, MD**, Assistant Professor of Medicine, Cardiovascular Medicine

*Depression and Coronary Artery Disease*

*Ethnic Disparities in Coronary Artery Disease*

*Percutaneous Aortic Valve Replacement*

*Women and Coronary Artery Disease*

**Amitoj Marwaha, MD**, Assistant Professor of Medicine, Cardiovascular Medicine

*\*Management of Acute Coronary Syndrome During Pregnancy*

*Omega 3 Fatty Acids and Cardiac Disease*

*Outpatient Management of CHF*

*The Utility of Pre-operative Stress Testing*

**Jason Rubenstein, MD, FACC**, Assistant Professor of Medicine, Cardiovascular Medicine

*\*Atrial Fibrillation*

*Cardiac MRI*

*Sudden Cardiac Death Prevention*

**Jennifer Strande, MD, PhD**, Assistant Professor of Medicine, Cardiovascular Medicine

*\*Management of Unstable Angina and NSTEMI*

*\*Updates in Diastolic Heart Failure*

**Jennifer Wright, MD**, Assistant Professor of Medicine, Cardiovascular Medicine

*\*Atrial Fibrillation: Medical and Ablative Therapy*

*\*Indications for Permanent Pacemaker Therapy*

*\*Medical Syndromes with Associated Cardiac Rhythm Disorders*

## Cardiothoracic Surgery

**Mario Gasparri, MD**, Assistant Professor of Surgery

*End-Stage Pulmonary Disease: Surgical Treatment Options*

*Hyperhydrosis*

*Surgical Management of End-Stage Lung Disease*

*Surgical Management of Flail Chest*

*VATS Lobectomy – Is Less More?*

*Workup and Management of Pleural Effusions*

**Alfred Nicolosi, MD**, Professor of Surgery

*Standard and Minimally Invasive Surgery for Heart Valve Disease, including Mitral Valve Repair*

*Surgical and Endovascular Treatment for Diseases of the Thoracic Aorta, including Marfan and Related Syndromes*

*Surgical Treatment of Heart Failure – Transplant and Non-Transplant Options*

*Ventricular Assist Devices – Mechanical Circulatory Support*

**William Tisol, MD**, Assistant Professor of Surgery

*Lung Cancer Robotic Surgery: A Technology Looking for an Application?*

*Treatment of Flail Chest and Fixation of Rib Fractures*

*\*Update on Esophageal Surgery*

**William Tisol, MD**, Assistant Professor of Surgery; and **Alexandru Barboi, MD**,

Assistant Professor of Neurology

*Myasthenia Gravis*

**William Tisol, MD**, Assistant Professor of Surgery; and **William Rilling, MD, FSIR**,

Director of Vascular/Interventional Radiology, Professor of Radiology

*\*Update on Lung Cancer*

**James Tweddell, MD**, Chief, Division of Cardiothoracic Surgery, Professor of Surgery

*Adult Congenital Heart Disease*

*Atrioventricular Canal Defects*

## Dermatology

**Yvonne Chiu, MD**, Associate Professor of Pediatrics, Medicine

*Eczema*

*Spitz Nevi and Tumors*

**Sam Hwang, MD, PhD**, Chairman, Professor of Dermatology

*Cutaneous Lymphoma*

*Dysplastic Nevi (Moles)*

*Melanoma*

## Dermatology continued

**Edit Olasz, MD, PhD**, Assistant Professor of Dermatology

*Bullous Diseases*

*Cosmetic and Laser Dermatology*

*Dermatologic Surgery*

*High-Risk Non Melanoma Skin Cancer*

*Transplant Dermatology*

**Barbara Wilson, MD**, Associate Professor of Dermatology

*Dangerous Drug Eruptions*

*Dermatology Emergencies*

*Hepatitis C and the Skin*

*Psoriasis*

*Skin Cancer Screening*

*Skin Infections in Immunocompromised Hosts*

## Emergency Medicine

**Stephen Hargarten, MD, MPH**, Chairman of Emergency Medicine, Professor of

Emergency Medicine

*Alcohol-related Injury and Illness and Medicine's Role in Addressing this Issue*

*Firearm Injuries*

*Injury Prevention*

*Professionalism*

*Travel-related Mortality and Morbidity*

**Jason Liu, MD, MPH**, Associate Professor of Emergency Medicine

*Blast Injuries*

*\*Intro to Disaster Medicine*

*Mass Casualty Triage*

*\*Medical Issues with Conducted Energy Weapons (Tasers)*

*Tourniquets in Emergency Medicine*

## Endocrinology

**Ty Carroll, MD**, Assistant Professor of Medicine

*Androgen Deficiency: The Nuts and Bolts of Male Hypogonadism*

*Cushing's Syndrome: An Unusual Finding, but Commonly Missed*

*Outpatient Diabetes Management for the Primary Care Provider*

*Thyroid Nodules: Diagnosis and Management*

**Gilbert Fareau, MD**, Assistant Professor of Medicine

*\*Adrenal Nodules: Benign to Malignant*

*\*Hyperthyroidism/Hypothyroidism: Principles of Management*

*\*Pheochromocytoma and Paraganglioma*

*\*Thyroid Cancer: Diagnosis and Management*

*\*Thyroid Nodules: Benign to Malignant*

**James Findling, MD, FACP**, Professor of Medicine

*Adrenal Insufficiency: Diagnosis and Treatment*

*The Adrenal Nodule: Not Always Incidental*

*\*Endogenous Hypercortisolism: An Endocrinopathy formerly known as Cushing's Syndrome*

*Glucocorticoid Therapy: Myths, Mystery and Magic*

*\*Low Testosterone Syndrome and Male Hypogonadism: Physiology and Pathophysiology*

*\*The Use of Salivary Cortisol in Disorders of Pituitary-Adrenal Function*

**Brad Javorsky, MD**, Assistant Professor of Medicine

*Bariatric Surgery Complications*

*Hyperprolactinemia*

*\*Incidental Adrenal Nodules*

*Pituitary Tumors*

**Srividya Kidambi, MD**, Assistant Professor of Medicine

*\*Endocrine Hypertension*

*\*Insulin Resistance/Metabolic Syndrome/Diabetes*

*\*Polycystic Ovarian Disease*

*\*Resistant or Drug Resistant Hypertension*

*\*Secondary Hypertension*

**Beth Lalande, MD**, Assistant Professor of Medicine

*Diagnosis and Management of Polycystic Ovary Syndrome*

*\*Hirsutism*

*Menopause*

*Women's Health*

**Paul Knudson, MD**, Associate Professor of Medicine

*Diabetes Mellitus Management in the Hospitalized Patient*

*Diabetes Mellitus Type 1 Outpatient Management*

*Diabetes Mellitus Type 2 Outpatient Management*

*New Therapies for Diabetes Mellitus*

## Endocrinology continued

**Steven Magill, MD, PhD**, Associate Professor of Medicine

*\*Gestational Diabetes*

*\*Incretins for Treatment of Type 2 Diabetes*

*\*Insulin Pumps*

*\*Treatment of the Complex Patient with Type 2 Diabetes*

*\*U-500 Insulin, in Whom and How*

**Shailendra B. Patel, MD, DPhil, FRCP**, Professor of Medicine

*Diabetes: Diagnosis, Management and Update*

*Genetic Disorders of Lipids: What an Internist Should Know*

*Lipids, Atherosclerosis and Cardiovascular Risk Management*

*Update on Drugs*

**Brian Rose, MD**, Assistant Professor of Medicine

*Challenging Lipid Cases*

*Combination Lipid Treatment*

*NMR and apo B*

*The Statin Intolerant Patient*

*Thyroid Nodules*

**Joseph Shaker, MD**, Professor of Medicine

*Bone Disease associated with Bariatric Surgery and GI Disease*

*Hypercalcemia and Hypocalcemia*

*Metabolic Evaluation of Kidney Stones*

*Osteomalacia*

*Page's Disease of Bone and other Bone Diseases*

*Vitamin D*

## Gastroenterology

**For faculty speakers, please contact the Froedtert & The Medical College of Wisconsin Physician Liaison for your area, referenced on page 4 of this catalog.**

*Dysphasia – Diagnosis and Management*

*Elevated Liver Function Test – what's next?*

*Eosinophilic Esophagitis*

*Esophageal Motility Disorders*

*Fatty Liver – the new epidemic*

*Hepatitis A, B, C, E – what's new in management*

*IBD, Crohn's and Ulcerative Colitis – latest management and strategies*

*Reflux Disease Management*

*Supraesophageal Reflux Disease*

**Jose Franco, MD**, Professor of Medicine

*End Stage Liver Disease*

*Hepatitis B*

*Hepatitis C: Detection and Treatment*

*Liver Diseases*

*Non-alcoholic Fatty Liver Disease*

## Genetics

**David P. Bick, MD**, Professor of Pediatrics (Obstetrics and Gynecology)

*Cardiology and Genetics*

*Genetic Evaluation of Patients with Neurodevelopmental Disorders*

*Genetic Screening – What Should I Offer to My Patients/Personalized Medicine*

*Infertility and Genetics – What the Healthcare Provider Should Know*

*\*Using Whole Genome Sequencing in Clinical Practice*

## Hematology/Oncology

**Michael Bishop, MD, FACP**, Professor of Medicine

*\*Update/Review of Hematopoietic Stem Cell Transplantation*

*\*Recent Advances in Non-Hodgkin's Lymphoma*

*\*Hematopoietic Stem Cell Transplantation for NHL and CLL*

*\*Adoptive Immunotherapy for Hematologic Malignancies*

*\*Recent Advances in Chronic Lymphocytic Leukemia*

**Linda Blust, MD**, Assistant Professor of Medicine

*Diagnosis: What Patients Really Need to Know*

**Linda Blust, MD**, Assistant Professor of Medicine; and **Jo M. Weis, PhD**, Assistant

Professor of Psychology

*\*Behavioral and Medical Collaborations at the End of Life: Best Care for All*

**John Charlson, MD**, Professor of Medicine

*\*Management of Soft Tissue Sarcoma*

*\*Primary Care for Breast Cancer Survivors*

**James Thomas, MD, PhD**, Professor of Medicine

*\*Cancer Clinical Trials*

*\*Cancer Drug Development*

*\*Colorectal Cancer*

*\*Gastrointestinal Cancers*

*\*Neuroendocrine Cancers*

## Hematology/Oncology continued

**Lauren Wiebe, MD**, Assistant Professor of Medicine

*Evolving Cancer Care in Uganda and Other Resource-poor Nations*

*Managing Opioid Complications*

*Novel Therapies and Multidisciplinary Care for Gastrointestinal Neuroendocrine Tumors*

*Optimal Supportive Care of the Advanced Pancreas Cancer Patient*

*Refractory Nausea and Vomiting*

*Spiritual and Existential Distress in the Cancer Patient*

*Tough Symptoms in the Cancer Patient*

## Infectious Disease

**Charles E. Edmiston Jr., PhD, MS, CIC**, Professor of Surgery, Hospital Epidemiologist

*Reducing the Risk of Surgical Site Infections: Improving Surgical Outcomes Through Focused*

*Interventional Practices*

## Nephrology

**For faculty speakers, please contact the Froedtert & The Medical College of Wisconsin Physician Liaison for your area, referenced on page 4 of this catalog.**

*Acute Kidney Injury*

*Chronic Kidney Disease*

*Continuous Renal Replacement Therapy*

*Electrolyte Abnormalities*

*Glomerulonephritis*

*Management of End Stage Renal Failure*

*Medical Management of Kidney Stones*

*\*Medical Management of Kidney Transplants*

## Neurology

**Diane Book, MD**, Associate Professor of Neurology

*Ischemic Stroke: Detection, Management, Prevention and Treatment*

*Stroke Centers: When and Why You Should Refer*

**Brian-Fred Fitzsimmons, MD**, Assistant Professor of Neurology and Neurosurgery; and

**John Lynch, MD**, Associate Professor of Neurology; and **Sam O. Zaidat, MD, MSc**,

Director, Neuro-Interventional Program; Chief of Neurointerventional Division,

Professor of Neurology, Neurosurgery, Radiology

*Acute Ischemic Stroke Endovascular Therapy Update*

*Advances in Stroke Prevention*

*Carotid Artery Disease*

*Carotid Artery Stenting Update*

*Cerebral Aneurysm*

*Endovascular Treatment of Cerebral Aneurysms and AVM*

*Endovascular Treatment of Hemorrhagic Stroke*

*Endovascular Treatment of Intracranial Aneurysms*

*Intracranial Atherosclerosis*

*Ischemic Stroke Update*

**Dr. Zaidat also offers the following topics:**

*Intracranial Stenosis*

*Management of Vertebral Body Compression Fracture*

*Vertebral Artery Origin Stenosis and Stenting*

*Vertebroplasty and Kyphoplasty*

**Ann Helms, MD, MS**, Associate Professor of Neurology

*\*Neurologic Prognostication*

*\*Stroke*

*\*Traumatic Brain Injury*

**Mark G. Malkin, MD, FRCPC, FAAN**, Chief, Division of Neuro-oncology; Professor of Neurology and Neurosurgery; and **Jennifer Connelly, MD**, Assistant Professor of Neurology, Neuro-oncology

*Advances in the Treatment of Metastatic Brain Tumors*

*Altered Mental Status in the Neuro-Oncology Patient*

*And the Good News Is ... (a lecture on the treatment of Glioblastoma Multiforme)*

*Glioblastoma Multiforme: Measures of Success and Failure*

*Leptomeningeal Metastases 1985-2010: plus ça change, plus c'est la même chose*

*Management of Seizures in Brain Tumor Patients*

**Manoj Raghavan, MD, PhD**, Associate Professor of Neurology

*\*Magnetoencephalography in the Evaluation of Patients with Epilepsy*

*Non-pharmacological Treatments for Drug-Resistant Epilepsy*

*Physiological Imaging of Cortical Dysfunction in Epilepsy*

*Progressive Nature of Drug-Resistant Partial Epilepsy*

*Surgical Treatment of Epilepsy*

**Katie Spangler, MD**, Assistant Professor of Neurology

*\*Cognitive and Mood Aspects of Parkinson's Disease*

*\*Essential Tremor*

*\*Huntington's Disease*

*\*Non-motor Symptoms of Parkinson's Disease*

*\*Parkinson's Disease*

## Neuropsychology

**David Sabsevitz, PhD**, Associate Professor of Neurosurgery

*\*Everything You Need to Know about Neuropsychology from the Movies*

*\*Pre-surgical fMRI Language Mapping: Methodological Considerations*

*\*Time Course and Risk Factors Associated with Whole Brain Radiation-induced Injury*

## Neurosurgery

**Jamie L. Baisden, MD**, Associate Professor of Neurosurgery

*Brain Death*

*Chiari Malformations*

*Spinal Disorders*

*Spinal Surgery*

*Spinal Trauma/SCI*

*Spinal Tumors*

**Dennis J. Maiman, MD, PhD**, Chairman of Neurosurgery; Professor of Neurosurgery

*Advances in the Treatment of Spinal Disorders*

*Spinal Cord Injury, Spine Stabilization, Effect on Outcome*

*Update on Spinal Surgery and Conditions*

**Marjorie Wang, MD, MPH, FAANS**, Associate Professor of Neurosurgery

*Risks, Outcomes and Expectations: Cervical Spine Surgery for Degenerative Conditions*

## Obstetrics/Gynecology

**Vanessa Barnabei, MD, PhD**, Professor of Obstetrics/Gynecology

*Menopause and Midlife Health*

*Vulvar and Vaginal Disorders*

**William Bradley, MD**, Assistant Professor of Obstetrics/Gynecology

*\*Gynecologic Cancer Topics*

*\*Minimally Invasive Surgery*

**Fredrik Broekhuizen, MD**, Professor of Obstetrics/Gynecology

*Contraceptive Update*

*Current Guidelines for Cervical Cancer Screening*

*How to Prepare for International Health Work*

*HPV-disease and Vaccination*

*Management of Preterm Labor*

*Prevention of Prematurity*

**Timothy Klatt, MD**, Associate Professor of Obstetrics/Gynecology

*Care of the Obese Gynecologic Patient*

*Care of the Obese Obstetric Patient*

*Fetal Heart Rate Monitoring*

*Patient Safety and Quality Improvement*

**Paul Lemen, MD**, Associate Professor of Obstetrics/Gynecology

*Alternatives to Hysterectomy*

*Contraception Options*

*General Obstetrics or Gynecology Topics*

*Preconception Care*

**Seema Menon, MD**, Assistant Professor of Obstetrics/Gynecology

*\*Amenorrhea*

*\*Contraceptive Dilemmas*

*\*Gynecologic Care of Immunocompromised Adolescents*

*\*Menstrual Cycle is a Vital Sign in Adolescents*

*\*Pap Testing in Adolescents*

*\*PCOS*

**Raj Narayan, MD, FRCOG, FACOG**, Associate Professor of Obstetrics/Gynecology

*Dysfunctional Uterine Bleeding*

*Pap Smears*

**Jacquelyn Paykel, MD, FACOG**, Assistant Professor of Obstetrics/Gynecology

*\*Botanicals in Women's Health*

*\*The Impaired Physician*

*\*Integrative Medicine – A Primer*

*\*Options in Managing the Menopause Transition*

*\*Women's Sexual Health*

**Janet Rader, MD, FACOG**, Chair of Obstetrics/Gynecology; Professor of Obstetrics/Gynecology

*Clinical Trials*

*Cervical Cancer Topics*

*\*Minimally Invasive Surgery*

*Ovarian Cancer Topics*

*Personalized Cancer Treatment*

## Obstetrics/Gynecology continued

**Estil Strawn, Jr., MD**, Director, Division of Reproductive Medicine and Fertility;  
Professor of Obstetrics/Gynecology; and **Paul A. Robb, MD**, Assistant Professor of  
Obstetrics/Gynecology

*Diminishing Ovarian Reserve*

*Endometriosis: To Operate or Not Operate?*

*The Ethics of Assisted Reproduction – What is the Responsibility of the Health Care Team?*

*Fertility Preservation Options for Men and Women*

*Genetics for the Health Care Provider*

*Recurrent Early Pregnancy Loss – Diagnosis and Treatment*

*Treatment Options for the Infertile Couple: Responsible Counseling in the era of “Octomom”*

**Estil Strawn Jr., MD; Paul A. Robb, MD; and Jay Sandlow, MD**, Vice Chairman and  
Professor of Urology (Dr. Sandlow will present on any male infertility topic requested.)

*Does the Biological Clock Tick for Both Men and Women?*

**Denise Uyar, MD**, Assistant Professor of Obstetrics/Gynecology

*Endometrial Cancer*

*Vulvar Cancer*

**Suzanne Walczak, MD**, Assistant Professor of Obstetrics/Gynecology

*Contraceptive Options for Medically Complex Patients*

*Culture Competency in Caring for the Health Needs of Lesbian, Gay, Bisexual and  
Transgender Patients*

*Overview of Contraception*

*Patient-centered Contraceptive Counseling*

*Taking a Sexual History*

*Updates in Long-acting Reversible Contraceptives*

## Orthopaedics

Faculty are available to speak on any topic requested including Arthritis; Arthroscopy;  
Femoroacetabular Impingement; Foot/Ankle Disorders; Hand Surgery; Joint Reconstruction/  
Replacement; Elbow, Knee, Neck, Sparing Hip Surgery; Spine Disorders/Surgery; and  
Sports Medicine.

**For faculty speakers, please contact the Froedtert & The Medical College of  
Wisconsin Physician Liaison for your area, referenced on page 4 of this catalog.**

**Donald Hackbarth, MD**, Professor of Orthopaedic Surgery  
*Bone and Tissue Banking in the 21st Century: Current Treatment Options for Skeletal  
Defects and Musculoskeletal Injuries*  
*Diagnosis and Treatment of Benign and Malignant Bone Tumors*  
*Diagnosis and Treatment of Metastatic Bone Tumors*  
*Reconstructive Options after Limb Salvage Surgery for Malignant Bone Tumors*  
*Sarcomas of Bone and Soft Tissue*  
*Treatment Options for Failed Joint Arthroplasties*

**David M. King, MD**, Associate Professor of Orthopaedic Surgery  
*Avascular Necrosis of Bone*  
*Approach to Metastatic Bone Disease*  
*Benign or Malignant Bone Tumors*  
*Biopsy of Musculoskeletal Lesions*  
*Reconstructive Options Following Limb Salvage Surgery*  
*Soft Tissue Sarcomas*

## Otolaryngology

**Jonathan Bock, MD**, Assistant Professor of Otolaryngology  
*\*Conservation Laser Surgery for Laryngeal Cancer*  
*\*Management of Dysphonia*  
*\*Surgical Management of Dysphagia*

**David Friedland, MD, PhD**, Associate Professor of Otolaryngology  
*Cholesteatoma and Chronic Ear Disease*  
*\*Cochlear Implants and Other Implantable Hearing Devices*  
*Dizziness and Balance Disorders*  
*\*Hearing Loss: Causes, Prevention and Treatment*  
*\*Tinnitus*

**Todd Loehrl, MD**, Associate Professor of Otolaryngology  
*Contemporary Management of Chronic Rhinosinusitis*  
*Maximizing Medical Therapy for Chronic Rhinosinusitis*  
*Reflux and Chronic Rhinosinusitis: What is the Evidence?*  
*The Role of Endoscopic Surgery in the Management of Chronic Rhinosinusitis*

**David Poetker, MD**, Assistant Professor of Otolaryngology  
*\*Hereditary Hemorrhagic Telangiectasia (HHT)*

**B. Tucker Woodson, MD**, Professor of Otolaryngology  
*\*Daytime Sleepiness: Clinical Implications, Diagnosis and Evaluation*  
*Evaluation and Treatment of Snoring*  
*Obstructive Sleep Apnea: Medical and Surgical Treatment*  
*\*Obstructive Sleep Apnea: Update on Medical Morbidity Treatment Effectiveness*  
*Restless Leg Syndrome*  
*\*What's New in the Treatment of Upper Airway Surgery for Sleep Apnea and Snoring*

## Physical Medicine and Rehabilitation – Neurosurgery

**Diane W. Braza, MD**, Associate Professor of Physical Medicine and Rehabilitation  
*Herniated Discs – Evaluation and Treatment*  
*Spine Care – Nonsurgical Treatment Options*

## Plastic Surgery

**John Hijjawi, MD**, Associate Professor of Plastic Surgery  
*Breast Reconstruction and Radiotherapy: Can't We All Just Get Along?*  
*Breast Reconstruction with Perforator Flaps and Biologic Substitutes*  
*Breast Reduction Surgery: Options for Relief*  
*MDCT Scanning and Perforator Flap Breast Reconstruction: New Options in Preoperative Imaging*  
*Reconstruction of Partial Mastectomy and Breast Conservation Deformities*

**Hani S. Matloub, MD, FACS**, Professor of Plastic Surgery  
*Brachial Plexus Injuries: Diagnosis and Treatment*  
*Congenital Hand Deformities*  
*Current Concepts in Nerve Regeneration*  
*Facial Reanimation*  
*Soft Tissue Coverage of the Hand*

## Psychiatry

**Brad Grunert, PhD**, Professor of Plastic Surgery and Professor of Psychiatry and Behavioral Medicine  
*Coping with Chronic Pain*  
*Factitious Disorders in Medical Settings*  
*Psychological Reactions to Hand Trauma*  
*PTSD Following Work-related Injuries*

**Carlyle Chan, MD**, Vice Chair for Professional Development and Educational Outreach, Professor of Psychiatry and Behavioral Medicine  
*\*Memories are Made of This: the Neuroscience of Remembering*  
*Recognizing and Treating Anxiety and Panic Disorders*  
*Recognizing and Treating Bipolar Disorders*  
*Recognizing and Treating Depression*  
*\*Stress Management*

**Mark Rusch, PhD**, Associate Professor of Plastic Surgery and Associate Professor of Psychiatry and Behavioral Medicine  
*Body Dysmorphic Disorder*  
*Conversion Disorders and Somatization*  
*Factitious Disorders*  
*Psychological Treatment of Insomnia*  
*PTSD*

## Pulmonary Medicine

**Julie Biller, MD**, Professor of Pulmonary/Sleep Medicine  
*Adult Cystic Fibrosis*  
*\*Quality Improvement*  
*Sarcoid, Bronchiectasis and General Airway Clearance*

**Stephen Dolan, MD**, Associate Professor of Pulmonary/Sleep Medicine  
*Lung Transplantation*  
*Tele-medicine*

**Rose Franco, MD**, Associate Director of the Sleep Disorders Program; Assistant Professor of Pulmonary/Sleep Medicine  
*Insomnia*  
*Narcolepsy*  
*Parasomnias*  
*Restless Leg Syndrome*  
*Sleep Apnea*  
*Sleep Disordered Breathing and the Cardiovascular System*  
*Sleep Disorders and Metabolic Consequences*

**Randolph J. Lipchik, MD**, Professor of Pulmonary/Sleep Medicine  
*Alpha – 1AT Deficiency*  
*Chronic Obstructive Lung Disease*  
*Interstitial Lung Disease*  
*Non-Tuberculosis Lung Infections*  
*Sarcoidosis*  
*Thoracic Malignancy: Diagnosis and Staging Modalities*  
*Thromboembolic Disease: Diagnosis and Management*  
*Tuberculosis*

**Kavita Munday, MD**, Assistant Professor of Pulmonary/Sleep Medicine  
*\*Excessive Daytime Sleepiness*  
*\*Insomnia*  
*\*Pulmonary Rehabilitation*  
*\*Sleep Disorders: Management in PCP Clinics*  
*\*Use of Portable Sleep Studies in Management of Sleep Apnea*

**Linus Santo Tomas, MD, MS**, Associate Professor of Pulmonary/Sleep Medicine  
*Asthma*  
*COPD/Emphysema*  
*Interstitial Lung Disease*  
*Mycobacterial Lung Diseases*  
*Sarcoidosis*  
*Tuberculosis*

**Rade Tomic, MD**, Assistant Professor of Pulmonary/Sleep Medicine  
*Interstitial Lung Disease*  
*\*Sarcoidosis*

## Rheumatology

**Mary E. Cronin, MD**, Professor of Rheumatology

*\*Idiopathic Inflammatory Myopathies*

*\*Systemic Lupus Erythematosus*

**Mary Ellen Csuka, MD, FACP**, Professor of Rheumatology

*\*Osteoporosis*

*\*Systemic Sclerosis*

**Richard Hariman, MD**, Assistant Professor of Rheumatology

*\*Rheumatoid Arthritis: Diagnosis and Treatment*

*\*Spondyloarthropathies*

*\*Steroid Induced Osteoporosis*

*\*Vasculitis*

**Paul B. Halverson, MD**, Professor of Rheumatology

*\*Crystals (Gout CPPD)*

*\*Interpretation of Lab Tests*

*\*New Treatment Options*

*\*Rheumatoid Arthritis*

*\*Spondyloarthropathies*

**Irina Konon, MD**, Assistant Professor of Rheumatology

*\*Rheumatoid Arthritis*

*\*Systemic Lupus Erythematosus*

**Ann K. Rosenthal, MD**, Professor of Rheumatology

*\*Calcium Crystal Associated Arthritis*

*\*Current Options in the Treatment of Gout*

*\*Musculoskeletal Complications of Diabetes*

*\*Osteoarthritis*

## Surgery

**Matthew Goldblatt, MD, FACS**, Associate Professor of Surgery

*Anti-reflux Surgery Options*

*Complex Hernias and Abdominal Wall Reconstruction*

*Obesity Surgery: So many choices...which one is right for my patient?*

**Jon Gould, MD**, Chief, Division of General Surgery

*\*Difficult Abdominal Hernias*

*\*Gastric Electrical Stimulation for Gastroparesis*

*\*GERD, NERD, and LERD: A Surgeon's Perspective on Gastroesophageal Reflux Disease*

*\*Robotic Surgery*

**Andrew Kastenmeier, MD**, Assistant Professor of Surgery

*\*Achalasia*

*\*GERD*

*\*Paraesophageal Hernias*

*\*Ventral, Incisional and/or Inguinal Hernias*

**Dean Klinger, MD**, Associate Professor of Surgery

*Laparoscopic Adrenaectomy – Indications and Results*

**Kirk Ludwig, MD FACS, FASCRS**, Chief of Colorectal Surgery, Assistant Professor of Surgery

*Colorectal Cancer Screening\*\**

*Diverticular Disease\*\**

*Evaluation and Management of Fecal Incontinence or Rectal Prolapse (for OB/GYNs)*

*Laparoscopic Surgery for Colorectal Cancer*

*Management of Common Anorectal Problems\*\**

*Rectal Cancer*

*Surgical Management of Inflammatory Bowel Disease*

**Dr. Ludwig will speak on all aspects of rectal cancer.**

**\*\*These presentations are designed for primary care physicians.**

## Surgical Oncology

**Kathleen Christians, MD**, Professor of Surgery

*Pancreatic Neuroendocrine Tumors – An Indication for Extreme Surgery?*

*Treatment Sequencing for Pancreatic Adenocarcinoma – Method behind the Madness*

**Douglas B. Evans, MD**, Chairman of Surgery; Professor of Surgery

*Contemporary Management of Localized Pancreatic Cancer*

*Surgical Controversies in the Management of Multiple Endocrine Neoplasia*

*Surgical Management of Papillary Thyroid Cancer*

## Surgical Oncology continued

**T. Clark Gamblin, MD, MS**, Chief of Surgical Oncology; Associate Professor of Surgery

*\*Benign Liver Masses – Current Management*

*\*Biliary Strictures – Contemporary Management Recommendations*

*\*Current Management of Cholangiocarcinoma*

*\*Gallbladder Cancer*

*Knives, Needles, Catheters and Probes: Team Management of Colorectal Hepatic Metastasis*

*\*Laparoscopic Liver Surgery*

*Primary Liver Cancer: Strategies for Diagnosis and Management*

**Dr. Gamblin will speak on all aspects of liver cancer.**

**Amanda Kong, MD, MS**, Assistant Professor of Surgery

*\*Breast Care for the Primary Care Physician*

*\*Current Treatment Strategies for Breast Cancer*

*\*Neoadjuvant Chemotherapy and Breast Cancer*

**Sam G. Pappas, MD**, Assistant Professor of Surgery

*Contemporary Approaches to Colorectal Liver Metastases*

*Gastrointestinal Neuroendocrine Tumors in the Modern Era and The Age of the Laparoscope*

*Monsters of the Retroperitoneum: Current Approach to Retroperitoneal Sarcomas*

*Surgical Options for Chronic Pancreatitis*

**Edward J. Quebbemann, MD, PhD**, Professor of Surgery

*\*Biliary Tract Abnormalities and Tumors*

*\*Work-up and Treatment of Liver Tumors*

**Paula M. Termuhlen, MD**, Professor of Surgery

*\*Physician Burn-Out and How to Avoid It*

*\*What is New in Melanoma?*

**Susan Tsai, MD, MHS**, Assistant Professor of Surgery

*Management of Cystic Neoplasms of the Pancreas*

*Utility of Lean Body Mass as a Predictor of Surgical Outcomes*

**Kiran K. Turaga, MD, MPH**, Assistant Professor of Surgery

*\*Advances in the Management of Peritoneal Carcinomatosis*

*Changing Paradigms for Treating Patients with Gastric Cancer and Positive Peritoneal Cytology*

*\*Isolated Hepatic Perfusion for Metastatic Ocular Melanoma and Other Malignancies*

*\*Isolated Limb Infusion for Locally Advanced Melanomas and Sarcomas*

*\*Minimally Invasive Surgical Oncology: How to Remove Cancer through a Keyhole?*

*\*Targeting Chemotherapy to the Sites of Disease*

**Tracy S. Wang, MD, MPH**, Assistant Professor of Surgery

*\*Management of Thyroid Nodules and Well-differentiated Thyroid Cancer*

*Surgical Approaches to Adrenalectomy*

*\*The Surgical Management of Primary Hyperparathyroidism*

**Tina W.F. Yen, MD, MS**, Associate Professor of Surgery

*\*Breast Cancer 101*

*Lymphedema After Breast Cancer Surgery*

*\*Role of Central Neck Dissection in Well-differentiated Papillary Thyroid Carcinoma*

*\*Surgical Management of Primary Hyperparathyroidism*

*\*Work-up and Management of Medullary Thyroid Carcinoma*

## Transplant Surgery

**Rebecca C. Anderson, PhD**, Professor

*\*Adjustment to Breast Cancer*

*\*Adjustment to End-Stage Organ Disease*

*\*Psychological Factors Related to Organ Transplantation*

**David C. Cronin, MD, PhD, FACS**, Associate Professor of Surgery

*\*Current Status of Liver, Kidney & Pancreas Transplantation*

*\*Liver Resection for Primary and Metastatic Disease*

*\*Medical Ethics*

*\*Repair of Bile Duct Injury*

*\*Transplant Immunosuppression*

**Christopher P. Johnson, MD, FACS**, Chief of Transplant Surgery; Professor of Surgery

*\*Kidney Transplantation Update*

*\*The Role of Pancreas Transplantation in Long Term Management of Diabetes*

*\*Vascular Access for Hemodialysis*

**Allan M. Roza, MD, FACS**, Professor of Surgery

*Current Status of Liver and Kidney Transplantation*

*The Role of Transplantation in the Treatment of Insulin-Dependent Diabetes*

*Vascular Access for Dialysis – Increasing the Options*

## Trauma Surgery

**Travis Webb, MD**, Associate Professor of Surgery

*Acute Care Surgery*

*Complex Abdominal Wall Hernias*

*Geriatric Trauma*

*Interprofessional Team Training*

*Surgical Education*

**John Weigelt, MD, DVM, MMA**, Chief, Division of Trauma and Critical Care Surgery,

Professor of Surgery

*Colon Trauma*

*MRSA Infections*

*\*Patient Safety and Quality*

*Perioperative Performance Improvement*

*Public Reporting of Hospital Data*

## Urology

**Ken Jacobsohn, MD**, Director, Minimally Invasive Urologic Surgery; Assistant

Professor of Urology

*Advances in Robotic Prostatectomy: Achieving Tripecta Outcomes*

*Management of Small Renal Masses*

*Managing Non-Invasive Bladder Cancer*

*Robotic Partial Nephrectomy for Kidney Cancer*

*Robotic Radical Cystectomy for Muscle-invasive Bladder Cancer*

*Surgical Management of Upper Tract Urothelial Carcinoma: Robotic Nephroureterectomy*

**William A. See, MD**, Chairman of Urology, Professor of Urology

*Active Surveillance as a Management Option for Prostate Cancer*

*Bladder Cancer*

*Hormonal Therapy in the Management of Prostate Cancer*

*Incontinence Following Prostatectomy*

*Male Lumpectomy: Organ-Sparing Options for Prostate Cancer*

*Medical Consumerism: How to Make Informed Healthcare Decisions for You and Your Loved Ones*

*Potency Preservation*

*Prostate Cancer*

*Robotic Prostatectomy: The Real Story*

*To Screen or Not to Screen – That is the Prostate Cancer Question*

*Treatment Options for the Prostate Cancer Patient*

## Vascular Interventional Radiology

**William R. Rilling, MD, FSIR**, Director, Vascular/Interventional Radiology, Professor of Radiology and Surgery; **Robert A. Hieb, MD, RVT**, Associate Professor; **Eric J. Hohenwalter, MD**, Associate Professor; **Parag J. Patel, MD**, Assistant Professor; **Sean M. Tutton, MD, FSIR**, Associate Professor; or **Sarah B. White, MD**, Assistant Professor.

*Abdominal Aortic Aneurysm: Diagnosis and Management including Minimally Invasive Options*

*Diagnosis and Management of Lower Extremity Venous Insufficiency (Dr. Hohenwalter)*

*Image-Guided Therapy and the Surgical Management of Hepatic Malignancy*

*Percutaneous Radiofrequency Ablation and Percutaneous Cryoablation of Focal Malignancy*

*Peripheral Vascular Disease: Detection and Treatment Options*

*Reno vascular Hypertension: Diagnosis and Treatment*

*TIPS for Treating Portal Hypertension (Dr. Rilling and Dr. Hieb)*

*Update on Interventional Oncology and Current Clinical Trials (Dr. Rilling)*

*Uterine Artery Embolization for the Treatment of Symptomatic Uterine Fibroids*

*Vascular Malformations: Classification and Treatment*

*\*Vein Clein (Dr. Hohenwalter and Dr. Patel)*

*Vertebral Augmentation for the Treatment of Painful Benign or Malignant Compression Fractures*

**All listed physicians can also combine their lecture with a member of the department of surgery faculty to offer a presentation addressing both the surgical and minimally invasive approach to the treatment of the above conditions.**

## Vascular Surgery

**Kellie R. Brown, MD, FACS**, Associate Professor of Surgery

*\*Aneurismal Disease*

*\*Carotid Artery Disease*

*\*Peripheral Vascular Disease*

*\*Venous Disease*

**James B. Gossett, MD**, Assistant Professor of Surgery

*\*Atherosclerosis Risk Factor Modification*

*\*Carotid Arterial Disease*

*\*Non-Invasive Vacular Laboratory*

*\*Peripheral Arterial Disease*

*\*Venous Thromboembolic Disease/Hypercoagulable States*

## Vascular Surgery continued

**Brian D. Lewis, MD, FACS**, Associate Professor of Surgery

*\*Aneurismal Disease*

*\*Carotid Artery Disease*

*\*Peripheral Vascular Disease*

*\*Thoracic Outlet Syndrome*

**Peter J. Ross, MD, FACS**, Assistant Professor of Surgery

*\*Aneurismal Disease*

*\*Carotid Artery Disease*

*\*Peripheral Vascular Disease*

*\*Thoracic Outlet Syndrome*

**Gary R. Seabrook, MD, FACS**, Chief of Vascular Surgery, Professor of Surgery

*\*Aneurismal Disease*

*\*Carotid Artery Disease*

*\*Peripheral Vascular Disease*

## Allied Health Professional Speakers

### Neurology

**Linda Allen, RN, BSN**, Epilepsy Monitoring Coordinator, Froedtert Hospital

*Epilepsy 101*

*Epileptic vs. Non-Epileptic Seizures*

*\*Seizures in the Hospital Setting*

**Christopher Sheridan, RN**, Program Manager, Parkinson's and Movement Disorders Program

*\*Parkinson's 101*

### Pancreatobiliary/Endocrine Surgery

**Elizabeth Krzywda, NP**, Medical College of Wisconsin Nurse Practitioner

*Pancreatic Cancer*

*Pancreatic Disease and Surgery*

*Primary Hyperparathyroidism*

*Thyroid Cancer and Thyroid Surgery*

### Transplant

**Froedtert & The Medical College of Wisconsin Abdominal Transplant Coordinator**

*Kidney Transplant 101*

**Leanne Graf, PA-C, MPAS**, Medical College of Wisconsin, Transplant Hepatology

*Liver Transplant 101*

### Vascular Surgery

**Debra Lanza, APNP**, Department of Surgery

*\*Follow-up for the Vascular Surgery Patient*

*\*Venous Ulceration Care*

*\*Wound Care for the Vascular Surgery Patient*

9200 W. Wisconsin Ave.  
Milwaukee WI 53226

414-805-3666

800-272-3666
