

# THE ZOO INTERCHANGE

## Emergency Bridge Replacement Project

# project brief

### NORTHBOUND US 45 BRIDGE CLOSURE

The Wisconsin Department of Transportation (WisDOT) is closing the US 45 northbound bridge in the Zoo Interchange immediately. Bridge inspections revealed additional cracking in the structure, prompting the immediate closure in the interest of safety for the motoring public.

#### Northbound I-894/US 45 bridge detour:

During this closure, traffic will be detoured onto eastbound I-94 and will exit to 84th Street to turn around and head northbound on US 45 (see graphic).

**84th Street in the area will be closed to facilitate movements for detoured traffic.** Other closures in the area include:

- US 45 northbound on-ramp at Greenfield Ave.
- US 45 northbound on-ramp at Lincoln Ave.
- US 45 northbound on-ramp at National Ave.
- O'Connor St. at 76th St. (open to local residents only)

WisDOT is working with the contractor to accelerate the schedule and limit traffic impacts. Extra law enforcement will be patrolling the detour route to help maintain safe traffic operations.

WisDOT encourages all travelers to plan ahead while traveling in the area, use alternate routes and expect delays. WisDOT thanks you for your patience during this incident.

**Questions?** Call the hotline at (262)548-8721.
