

Transplant and End-stage Kidney Disease Program

Our goal at the Froedtert & The Medical College of Wisconsin Transplant Center is to provide exceptional care to all patients using a comprehensive, team-based approach. We provide excellent, quality care for patients with end-stage kidney disease.

program results

Outstanding Outcomes

The following table demonstrates our one-year and three-year patient and graft survival rates in comparison with the national average. *Source: ustransplant.org, release date July 12, 2011*

Duration	Patient Survival		Graft Survival	
	Froedtert & The Medical College	National	Froedtert & The Medical College	National
1 Year	96.32	96.76	94.14	93.55
3 Years	95.26	91.86	91.67	84.98

transplant and end-stage kidney disease team

Medical College of Wisconsin physicians and staff
