

# Comprehensive Epilepsy Program

## overview

- Program longevity and experience (1991 – one of first in Wisconsin)
- Multidisciplinary teams collaborate on each surgical case
- Advanced diagnostic tools available: MEG, functional MRI for language and motor mapping, Tesla MRI, MRS, subtraction SPECT, PET, and Diffusion Tensor Imaging MRI, and video EEG monitoring
- Access to clinical trials offering the latest drug therapies
- Level 4 Epilepsy Center-highest ranking by National Association of Epilepsy Centers
  - Six-bed, dedicated observation suite with digital video and EEG monitoring
  - Intracranial EEG monitoring and intra- and extra-operative brain mapping
- Co-managed care of patients with uncharacterized seizures or refractory epilepsy; Referring physicians receive video EEG of patient's seizures

## Medical College of Wisconsin physicians and staff

### Neurology

Humberto Battistini, MD  
*Neurologist specializing in EEG;  
Director of the Sleep Disorders Program*

Ekrem Kutluay, MD  
*Neurologist specializing in refractory epilepsy,  
Investigational drug trials*

Conrad Nievera, MD, FPNA  
*Neurologist specializing in refractory  
epilepsy and stroke*

Manoj Raghavan, MD, PhD  
*Director, Comprehensive Epilepsy Program/MEG  
Neurologist specializing in refractory epilepsy*

Sylvain Baillet, PhD  
*MEG Scientific Program Director*

### Neuropsychology

Julie Bobholz, PhD  
*Neuropsychologist*

Thomas Hammeke, PhD  
*Neuropsychologist*

David Sabsevitz, PhD  
*Neuropsychologist*

Sara Swanson, PhD  
*Neuropsychologist*

### Neurosurgery

Wade Mueller, MD  
*Board-certified Neurosurgeon  
specializing in epilepsy surgery,  
brain tumors and Vagus Nerve  
Stimulation (VNS) implants*

### Epilepsy Program Specialists

Linda Allen, RN, BSN  
*Program Coordinator,  
Comprehensive Epilepsy Program*

LeeAnn Lathrop, MS  
*Social Worker*

Morgan Meier, RN, BSN  
*Nurse*

Kaitlin Swanson  
*Neurophysiology Lab, Manager*

Brenda Terranova, R. EEG/EPT/CLTM  
*Neurophysiology Lab Coordinator*

Michelle Tisch, RN  
*Nurse*

## we work with you

Our physicians and staff work closely with referring physicians to coordinate treatment as well as follow-up care. The Comprehensive Epilepsy team provides an initial evaluation report, ongoing video EEG of patient's seizures and progress reports. Consultations are available.

## contact us

To refer a patient to the Comprehensive Epilepsy Program, call **414-805-3666** or **800-272-3666**. For more information about the program or to consult with one of our physician specialists, call **414-805-4700** or **877-804-4700**.
